Workflows flow better without hard work

RICOH
imagine. change.

Maximise productivity and minimise effort with DirectScan

Optimise your workflows with PC-less scanning direct to designated destinations. With DirectScan, you can save scanned image data directly to a network folder, an FTP, FTPS or SFTP server, or multiple pre-programmed email addresses with simple touchscreen options.

You can do it all with or without a PC/laptop, server, phone or other smart device – saving you time, money, space and effort. Streamline your scanning with DirectScan to achieve the most cost effective, secure and collaborative digital workflows.

··DirectScan

DirectScan benefits at-a-glance

- Saves time by reducing complexity and making the scanning process simpler

- Easy to use with no prior knowledge needed for set up, ensuring workflow efficiency straightaway

- Improves productivity by actioning scanning tasks quicker, including in-built image processing functions such as auto-rotation for ready-to-use output files

Combine workflow and scanning efficiency with DirectScan and the RICOH fi-8040

Featuring the DirectScan function, the RICOH fi-8040 scanner offers multiple ways to connect to business workflows, while also delivering a highly intuitive user experience – with or without a PC or server.

With the fi-8040, you gain:

- Industry-leading standards in the image quality and accuracy of captured documents

- Complete flexibility and versatile connectivity options with multiple ways to connect to workflows, with or without a PC

- An intuitive user experience with instant, efficient and effortless operation driven by a colour touchscreen
